

Reviving the historical Mask of Varus!

For the long-term exhibition „Battle of Varus - 2000 yrs“ P.S. Lackierungen GmbH has reproduced an oversized copy of the authentic face of a roman knight.

The reproduction of the historical visor was planned by the architects of Hollenbeck & Plato (Cologne). The historical trove was realized in fibreglass reinforced with resins. P.S. Lackierungen then took care of the surface by applying a real-aluminium skin through cold-spraying method, which consists of 95% of Al-metal. Through intensive surface treatment the resemblance with the historical original was realized.

Since the 15th of May, 2009 the “Mask of Varus” is displayed in the entrance area of the Museum and Park Kalkriese in the Osnabrücker Land.

More information on: www.kalkriese-varusschlacht.de

basic information:

- material: GFK laminate pod
- dimensions: 2100 x 1600 x 900 mm
- weight: ca. 120 kg

coating process:

- metal: aluminium
- layer thickness: ca. 120 my
- process: 6 grinding stages
polishing
coating and finish

Coatings and special surfaces

When a design idea takes shape, our dedication begins:

Range of application

- prototyping in any research & development dept.
- design objects
- artwork
- model making /display construction
- store/booth construction
- architecture
- interior design
- small batch production

Our service portfolio

- chrome optics
- cold-sprayable metal surfaces
- soft-touch coatings
- special coatings and effect coatings
- prototype construction by cooperation partners
- new: tinted carbon
- new: water transfer printing
